

DOE FY 2007 RCRA/EO 13101 Completed Report Vehicular Products

Chicago-Fermi National Accelerator Laboratory

Re-refined lubricating oil

NOTE: DLA will provide data for DOE purchases of oil through the Defense Supply Center Richmond's re-refined oil programs. Please provide amounts for your purchases from other sources (i.e., NONFEDERAL).

Total dollar amount of motor vehicle lubricating oils purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 5,676.00

If your vehicle maintenance is accomplished through service contracts that include a standard price for vehicle servicing, report the total number of servicings in FY 2007, rather than the dollar value:

\$ 0

Dollar amount of motor vehicle lubricating oils **containing recovered materials** purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 5,676.00

If your vehicle maintenance is accomplished through service contracts that include a standard price for vehicle servicing, report the total number of servicings **where the vehicle was serviced with re-refined oil** in FY 2007, rather than the dollar value:

0

If this product is purchased using a facility specification, does that specification require the use of recovered materials?

- ☒ Yes
☐ No
☐ Not Applicable

Did you purchase motor vehicle lubricating oils containing only virgin materials? If yes, continue. If no, go to bottom of page and press the **Submit** button!

Executive Order 13101 requires that 100 percent of purchases of designated items meet or exceed the EPA guideline standards unless written justification is provided of the following: (check all those that apply)

- ☐ the item made with recovered materials is not available competitively within a reasonable period of time
☐ the item made with recovered materials is not available at a reasonable price
☐ the item made with recovered materials is not available within the performance requirements

☐ None of the above (Justification does not conform with valid reasons per EO 13101. Corrective action should be taken to prevent re-occurrence.)

Although this report does not require that you provide detailed documentation of the justification for not purchasing

100 percent of the designated item with recommended levels of recovered materials, EO 13101 requires that written justification be provided. Thus, documentation should be maintained at your site for future reference.

In order to satisfy our reporting requirements to OMB, please provide a summary of the justifications (technical impediments) preventing your consistent purchase of the EPA designated item with recovered content:

Total dollar amount of purchases of this item which do not conform with the three EO 13101 justifications given above:

\$ 0.00

Per EO 13101, procurement personnel **MUST** submit a plan for purchasing recovered-content EPA designated items if any or all of your purchases of virgin content products were unjustified.

Please describe your site plan.

Reclaimed Engine Coolants

For organizations that maintain fleet maintenance facilities, how many fleet maintenance facilities did you operate in FY 2007?:

0

How many of your fleet maintenance facilities owned and operated engine coolant recycling equipment in FY 2007?:

0

Total dollar amount of engine coolant purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 330.00

Dollar amount of engine coolant **containing recovered materials** purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 330.00

If this product is purchased using a facility specification, does that specification require the use of recovered materials?

- ☒ Yes
- ☐ No
- ☐ Not Applicable

Did you purchase engine coolant containing only virgin materials? If yes, continue. If no, go to bottom of page and press the **Submit** button!

Executive Order 13101 requires that 100 percent of purchases of designated items meet or exceed the EPA guideline standards unless written justification is provided of the following: (check all those that apply)

- ☐ the item made with recovered materials is not available competitively within a reasonable period of time
- ☐ the item made with recovered materials is not available at a reasonable price
- ☐ the item made with recovered materials is not available within the performance requirements

☐ None of the above (Justification does not conform with valid reasons per EO 13101. Corrective action should be taken to prevent re-occurrence.)

Although this report does not require that you provide detailed documentation of the justification for not purchasing 100 percent of the designated item with recommended levels of recovered materials, EO 13101 requires that written justification be provided. Thus, documentation should be maintained at your site for future reference.

In order to satisfy our reporting requirements to OMB, please provide a summary of the justifications (technical impediments) preventing your consistent purchase of the EPA designated item with recovered content:

Total dollar amount of purchases of this item which do not conform with the three EO 13101 justifications given above:

\$ 0.00

Per EO 13101, procurement personnel MUST submit a plan for purchasing recovered-content EPA designated items if any or all of your purchases of virgin content products were unjustified.

Please describe your site plan.

Retread Tires

NOTE: TACOM will provide data for DOE purchases of tires for military tactical vehicles. Please provide amounts for your purchases of tires from other sources (i.e., NONFEDERAL), including GSA schedule contracts.

Total dollar amount of tires (other than airplane tires) purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 19,220.00

Dollar amount of **retread** tires (other than airplane tires) purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 10,020.00

Dollar amount of tire retreading services purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 0.00

If this product is purchased using a facility specification, does that specification require the use of recovered materials?

- ☒ Yes
☐ No
☐ Not Applicable

Did you purchase non-retreaded tires? If yes, continue. If no, go to bottom of page and press the **Submit** button!

Executive Order 13101 requires that 100 percent of purchases of designated items meet or exceed the EPA guideline standards unless written justification is provided of the following: (check all those that apply)

- ☒ the item made with recovered materials is not available competitively within a reasonable period of time
☐ the item made with recovered materials is not available at a reasonable price
☐ the item made with recovered materials is not available within the performance requirements

☐ None of the above (Justification does not conform with valid reasons per EO 13101. Corrective action should be taken to prevent re-occurrence.)

Although this report does not require that you provide detailed documentation of the justification for not purchasing 100 percent of the designated item with recommended levels of recovered materials, EO 13101 requires that written justification be provided. Thus, documentation should be maintained at your site for future reference.

In order to satisfy our reporting requirements to OMB, please provide a summary of the justifications (technical impediments) preventing your consistent purchase of the EPA designated item with recovered content:

Large truck tires are the only type available on short(24 hour) notice. There are no local suppliers or services available that stock retread tires for passenger cars and minivans. Light truck tires are available only on special order and the lead time is at least two weeks. We do not have available space to inventory tires.

Total dollar amount of purchases of this item which do not conform with the three EO 13101 justifications given above:

\$ 0.00

Per EO 13101, procurement personnel **MUST** submit a plan for purchasing recovered-content EPA designated items if any or all of your purchases of virgin content products were unjustified.

Please describe your site plan.

rebuilt vehicular parts

NOTE: DLA will provide data for DOE purchases of oil through the Defense Supply Center Richmond's re-refined oil programs. Please provide amounts for your purchases from other sources (i.e., NONFEDERAL).

Total dollar amount of motor vehicle lubricating oils purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 0.00

If your vehicle maintenance is accomplished through service contracts that include a standard price for vehicle servicing, report the total number of servicings in FY 2007, rather than the dollar value:

\$ 0

Dollar amount of motor vehicle lubricating oils **containing recovered materials** purchased by your organization from NONFEDERAL sources in FY 2007:

\$ 0.00

If your vehicle maintenance is accomplished through service contracts that include a standard price for vehicle servicing, report the total number of servicings **where the vehicle was serviced with re-refined oil** in FY 2007, rather than the dollar value:

0

If this product is purchased using a facility specification, does that specification require the use of recovered materials?

- ☐ Yes
☐ No
☐ Not Applicable

Did you purchase motor vehicle lubricating oils containing only virgin materials? If yes, continue. If no, go to bottom of page and press the **Submit** button!

Executive Order 13101 requires that 100 percent of purchases of designated items meet or exceed the EPA guideline standards unless written justification is provided of the following: (check all those that apply)

- ☐ the item made with recovered materials is not available competitively within a reasonable period of time
☐ the item made with recovered materials is not available at a reasonable price
☐ the item made with recovered materials is not available within the performance requirements

☐ None of the above (Justification does not conform with valid reasons per EO 13101. Corrective action should be taken to prevent re-occurrence.)

Although this report does not require that you provide detailed documentation of the justification for not purchasing 100 percent of the designated item with recommended levels of recovered materials, EO 13101 requires that written justification be provided. Thus, documentation should be maintained at your site for future reference.

In order to satisfy our reporting requirements to OMB, please provide a summary of the justifications (technical impediments) preventing your consistent purchase of the EPA designated item with recovered content:

Total dollar amount of purchases of this item which do not conform with the three EO 13101 justifications given above:
